

Canaan Baptist Church

Sanctuary Streaming & Audiovisual Enhancements – Phase II 2021 Project Overview

The Senior Pastor and church leadership are excited to announce the continuation of our Streaming and Audiovisual Enhancement Project. We look forward to working with Troy Topinka, Rudy Robinson, and our preferred contractors and partners to continue enhancing the live streaming, lighting, and audiovisual experience in Canaan's Main Sanctuary, Atterbeary/Holcomb Chapel, and Fellowship Hall.

Phase II - Project Highlights

Our prayer is that with this phase of the project, Canaan will be able to:

- Continue delivering enhanced professional-level audiovisual live streaming of worship services, weddings, funerals, and other events from our beautiful and historic sanctuary
- Deliver a new visual and informational experience for in-person worshippers and participants via high-definition display screens, additional audio monitors, and other hardware and software
- Continue with indoor and outdoor lighting improvements
- Expand audiovisual streaming to Atterbeary/Holcomb Chapel and Fellowship Hall
- Continue to expand our outreach to worshippers and ministry partners locally and globally

Phase II - Project Specifications

The project plan for phase II includes the installation of several new pieces of equipment, necessary software and licenses, and enhancements of existing infrastructure in the Main Sanctuary, Atterbeary/Holcomb Chapel, Fellowship Hall, and surrounding areas. These include, but are not limited to:

- Installation of three (3) 85" high-definition LED display screens in the Main Sanctuary
- Installation of two (2) 42" high-definition LED display screens in the Pulpit and Choir Loft
- Installation of two (2) choir audio monitors
- Installation of permanent conduit and high-data rate cabling to Atterbeary/Holcomb Chapel
- Installation of permanent conduit and high-data rate cabling to Fellowship Hall
- Installation of enhanced exterior lighting on the Bell Tower
- Acquisition of additional wireless microphones for multi-room use
- Enhancement and recalibration of existing audio and streaming infrastructure to accommodate the new equipment

Canaan Baptist Church

Sanctuary Streaming & Audiovisual Enhancements – Phase II
2021 Project Overview

Phase II - Project Timeline: 8-12 weeks*

In consultation with our project partners and with the current state of the global supply chain in mind, we estimate the completion of phase II to be sometime in December of 2021*

- Late October 2021*
 - Project agreement between Canaan & T. Topinka, R. Robinson, and other vendors
 - Construction/Implementation team initial meetings
 - Ordering of equipment and related supplies
- November 2021*
 - Delivery of equipment
 - Electrical and carpentry work and adjustments
 - Initial equipment and hardware installation and testing
 - Initial software installation, configuration and testing
 - Training of Canaan's Audiovisual/Media Ministry staff and volunteers
- December 2021*
 - Final equipment and hardware installation, testing, and adjustments
 - Final software installation, configuration, testing, and adjustments
 - User acceptance testing and project completion checklist
 - Training and assessment of Canaan's Audiovisual/Media Ministry staff and volunteers
 - Debut of enhanced systems to Canaanites

Phase II - Project Cost to Congregation: ~\$50,000.00*

- ~\$19,000.00* Equipment & Software
- ~\$8,000.00* Lighting Enhancements
- ~\$7,000.00* Electrical Upgrades
- ~\$16,000.00* Installation & Integration

We thank God for the leadership of the Holy Spirit in this endeavor and we thank the Canaanites for their generous financial contributions which are critical to the advancement of this project.

*Subject to change based on equipment availability, weather, infrastructure issues, pricing/inflation, etc.
